

COVID-19 SITUATION REPORT

WEEKLY EPIDEMIOLOGICAL REPORT 32

Epi Week 20: 17th – 23rd May 2021

DATA AS REPORTED AND ACCURATE BY NCDC AS AT MIDNIGHT 23RD MAY 2021

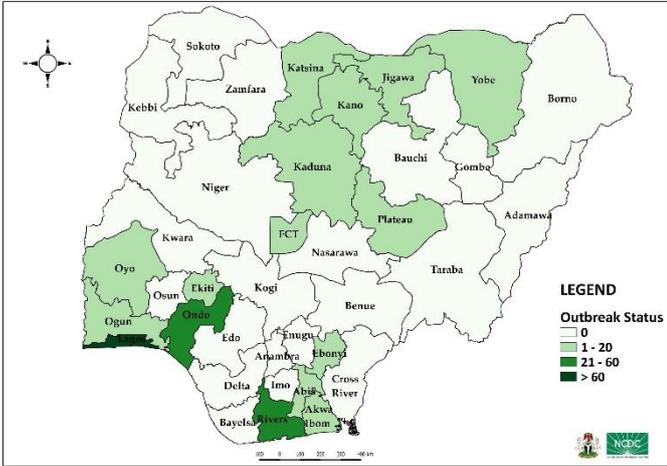

Fig 1. Distribution of cases (Epi Week 20 only)

Fig 2. Distribution of cumulative cases

HIGHLIGHTS

- In Week 20, the number of new confirmed cases increased to **310** from **290** reported in week 19. These were reported in **15** states and FCT (Tables 1 & 3).
- In Week 20, the number of discharged cases decreased to **63** from **116** in week 19. These were reported in **11** states and FCT (Tables 1 & 4).
- The number of reported deaths in the last one week was **1 (Ondo State)** (Tables 1 & 5).
- Cumulatively, since the outbreak began in Week 9, 2020 there have been **166,019** cases and **2,067** deaths reported with a case fatality rate (CFR) of **1.2%** (Tables 1 & 5).
- In Week 20, the number of in-bound international travellers at Nigerian airports was **15,755** compared with **15,669** in Week 19.
- In Week 20, the number of in-bound international travellers test was **2,747** of which **23** were positive compared to **18** from week 19.
- In Week 20, the number of out-bound international travellers test was **3,833** of which **25** were positive compared to **24** from week 19.
- Globally, the count for confirmed COVID-19 cases is **166,814,851** with **3,458,905** deaths resulting in a case fatality rate of **2.1%**.

GENERAL FACT SHEET – DATA AS AT 23RD MAY 2021

IN FOCUS: COVID-19 Pandemic: Importance of Testing

Since the beginning of the pandemic, NCDC in collaboration with other government institutions with the support of partners, has rapidly scaled diagnostic testing from five molecular laboratories with the capacity to test for COVID-19, to over 120 laboratories covering all 36 States plus the Federal Capital Territory (FCT).

Testing is extremely important as part of the COVID-19 response, as well as to enable health authorities to ascertain cluster transmission with active case search. Through continued testing, we can take the necessary measures to reducing the impact of the outbreak by accurately monitoring the disease trends, identifying new clusters of cases, initiating contact tracing to stop further spread and measuring the burden of COVID-19 in Nigeria.

Nigeria's testing strategy as developed by NCDC, comprises of testing every hospitalised Severe Acute Respiratory Illness (SARI) case and widespread testing in congregate settings. Members of the public who fit the [case definition criteria](#) are also tested.

It is important to take responsibility for your health and that of others. If you or a loved one experiences symptoms of COVID-19 or has met with someone who has been confirmed COVID-19 in the last 14 days, it is important to get tested immediately for COVID-19 because:

- If you have COVID-19 symptoms but test negative, continue to adhere to Non-Pharmaceutical Interventions or COVID-19 IPC safety measures such as wearing of face masks, good hand hygiene, social distancing etc.
- If the test turns out positive, you can help reduce the spread of the disease by self-isolating and getting prompt access to COVID-19 care in an accredited treatment centre. Please avoid contact with loved ones and other people.
- The elderly and those with pre-existing conditions are more susceptible to severe disease and death due to COVID-19. These groups should immediately seek care in an accredited treatment centre. r

You can get tested free of charge at your nearest COVID-19 testing site found [here](#). Incoming international travellers are required to self-isolate upon arrival and get tested for COVID-19 seven days after arrival into Nigeria at a private-fee paying lab. Read Nigeria's international travel protocol for COVID-19 [here](#).

Testing is extremely important as part of the COVID-19 response. Getting a positive test early in the course of the illness enables individuals to isolate themselves – reducing the chances that they will infect others and allowing them to seek treatment earlier, likely reducing disease severity and the risk of death.

RESPONSE

On 28th February 2020, a multi-sectoral Emergency Operations Centre (EOC) was activated at Level 3 which is the highest emergency level in Nigeria. This is led by NCDC in close coordination with the State Public Health EOCs (PHEOC) and through the deployment of **53** Rapid Response Teams (RRT) to states. Currently, response activities include:

- **Held virtual strategic coordination meeting with state team on increasing sample collection and testing in the states**
- **Conducted African Society for Laboratory Medicine (ASLM) virtual training and orientation for Epidemiologists, staff from the laboratory, surveillance, logistics and supply chain and State Surveillance Officers (SSOs).**

- **Commenced the implementation and tracking of the updated national Incident Action Plan (IAP)**
- **Continued intensivist training in conjunction with WHO & Anesthetic Association of Nigeria.**
- **Rolled out of Surveillance Outbreak and Response Management and Analysis System (SORMAS) platform to treatment facilities**
- **Conducted interim guideline review meeting for Clinical Management of COVID-19**
- **Sensitised schools, hospitals, patients and relations and religious bodies on hand hygiene**
- **Conducted media appearances and interviews on hand hygiene**
- **Conducted Training of Trainers (ToT) on the appropriate and safe use of approved Ag-RDTs for COVID-19 diagnosis**
- **Continued genomic sequencing of all positive samples from travellers arriving in Nigeria**
- **Deployed Lumira Dx Point of Care kit to test DP communities**
- **Ongoing distribution and logistics planning with UNICEF and GAVI to support primary health care facilities across the country with IPC supplies**
- **Conducted the H.A.N.D.S campaign**
- **Held strategic meetings with leadership of state health educators and health promotion officers**
- **Supported the education sector in the launch of safe schools' initiative**
- Continued tracking and collation of data from states for strategic coordination
- Established mechanisms and an intervention plan for antigen rapid diagnostic test kit (Ag-RDT) scale up throughout the country
- Continued collation of reports on Covid-19 clinical management study
- Ongoing COVID-19 Vaccine Effectiveness study in collaboration with National Primary Health Care Development Agency (NPHCDA) and World Health Organisation (WHO)
- Ongoing study on knowledge and compliance of health care workers to IPC measures in the control of COVID-19 infection
- Conducted meeting to assess medical oxygen capacity at treatment/ isolation centres
- Continued follow up with states for daily reporting, contact tracing and key challenges
- Followed up with states on daily initial samples collection
- Two vaccination centres established for aviation workers at Muritala Mohammed International Airport (MMIA) Lagos by the Lagos State Government
- Supported the training of hotel staff and hygienists in hotels to be used as quarantine centres in Lagos as approved by the Presidential Steering Committee (PSC)
- Training of health workers from tertiary health facilities across the country on screening and triage of Ebola and COVID-19
- Ongoing National IPC Policy review with expert working group
- Development of a triage template, Indicators and feedback reporting channel and dissemination to tertiary health facilities officers
- Supported monitoring and supervision of IPC and vaccination activities in health facilities

- Optimised and activated the University of Ilorin Molecular Laboratory and University of Ilorin Teaching Hospital Molecular Laboratories as public COVID-19 testing labs in Kwara state
- Optimised the FCT Molecular Laboratory in Kubwa for COVID-19 testing
- Activated Umaru Shehu Ultramodern Hospital PCR Laboratory, Borno State as a public laboratory for COVID-19 testing
- Deployed PPE and consumables to laboratory network in Bayelsa, Gombe, Katsina states and FCT
- Distributed RDT Kits to Bama & Banki IDP returnees in Borno state
- Trained risk communication team, town announcers and community mobilisers in Ebonyi and Akwa Ibom states
- Conducted advocacy to Abuja Municipal Area Council (AMAC) Federal Capital Territory (FCT) and media stations on the forthcoming seroprevalence survey
- Developed campaign plan given high risk of an increase in cases
- Conducted meeting with national stakeholders including Health Educators
- Ongoing media appearances on radio and television

PREPAREDNESS

Since the confirmation of the first case on 27th February 2020, the NCDC has released advisories and statements to help Nigerians and affected groups in particular to respond to the pandemic

- NCDC published [One year of COVID-19 response in Nigeria](#)
- NCDC and NIMR publish [findings of COVID-19 household seroprevalence surveys in four states of Nigeria](#)
- NCDC published a [Statement on variants of SARS-CoV-2 in Nigeria](#)
- The Federal Ministry of Education (FME) and partners, PTF and NCDC have developed: [Guidance for integrated safe school re-opening 26th January 2021](#)
- COVID-19 Health Protection Regulation signed by President Muhammadu Buhari on 26th January 2021: [Coronavirus Disease \(COVID-19\) Health Protection Regulations 2021](#)
- NCDC published an updated [community case definitions for coronavirus disease 2019](#)
- The Federal Ministry of Health and NCDC published [COVID-19 Patient's handbook for home-based care in Nigeria](#)
- NCDC published an updated [case definitions for coronavirus disease](#)
- NCDC published [Guidance for the use of approved COVID-19 antigen-based rapid diagnostic tests in Nigeria](#)
- Update of [travel protocols](#) for all travellers into Nigeria from [UK and South Africa](#)
- NCDC recently launched the [Celebrate Responsibly](#) campaign in response to the increase in cases of coronavirus disease (COVID-19) and poor adherence to public health and social measures across the country: [Celebrate Responsibly and Save Lives – New Awareness Campaign for the Yuletide Season](#)
- Ahead of the Christmas and end of year festivity, NCDC published the [End-of-Year Travel Advisory on COVID-19](#)
- NCDC recently launched the [COVID-19 blog](#) for telling the stories of Nigeria's response to the COVID-19 pandemic.
- NCDC published guidelines on 2020 National Youth Service Corps (NYSC) Orientation Camp activities in conjunction with PTF and NYSC: [Guidelines on 2020 National Youth Service Corps \(NYSC\) Orientation Camp activities](#)

- NCDC published guidance on the use of antigen RDTs: [Guidance on the use of Antigen Rapid Diagnostic Kits for diagnosis of SARS-CoV-2 infection in Nigeria](#)
- NCDC published guidance on safe school re-opening: [Public Health guidance for Safe School re-opening in Nigeria](#)
- NCDC published second interim guidance – Infection Prevention and Control: [Recommendations during health care provision for suspected and confirmed cases of COVID-19](#)
- NCDC recently published the first edition of a quick reference guide on setting up sample collection centre - [A step by step guide on setting up a sample collection centre](#)
- NCDC has launched an online course on [Infection, Prevention and Control \(IPC\) for COVID-19](#) NCDC eLearning platform
- Ahead of forthcoming elections in the country, NCDC has issued [Guidelines for Conducting Elections During the COVID-19 Outbreak in Nigeria](#).
- To protect our elders, and those with pre-existing medical conditions, NCDC has issued an [Advisory for Vulnerable Groups](#).
- NCDC has released [guidelines on the re-opening of places for worship](#).
- NCDC has released [Strategies to Improve Surveillance for COVID-19 Guidance for States](#)
- The Nigeria Police Force has released COVID-19 operational guidelines for the [Police and other Law Enforcement Agencies](#) in Nigeria
- Guidelines have been issued for the [safe transportation of remains of persons suspected or confirmed to have died of COVID-19](#)
- Information on diagnostics of the COVID-19 virus can be found in our [detailed FAQ document](#).
- To increase our testing capacity, NCDC has issued guidelines for the [integration of private labs](#).
- Guidelines for [businesses and employers](#) have been updated.
- NCDC has updated its [case definition](#) , [community case definition](#) and [case management guide](#).
- NCDC releases periodic [public health advisories](#) to Nigerians on the COVID-19 disease.
- To adhere to post-lockdown measures, NCDC has released an [advisory on the use of face masks](#), as well as information on the [Use of Cloth face masks](#) and [how to make your cloth face masks](#).
- NCDC has released guidelines for the [management of pregnant women and nursing mothers](#) during the pandemic.
- To address burials of loved ones who die from COVID-19, guidelines have been issued to advise on the [management of dead bodies](#).
- For health centres managing cases, the following documents have been released- a guideline for the [Rational Use of Personal Protective Equipment in the care of COVID-19 cases](#).
- As part of plans to increase the testing capacity of the country, the NCDC published a [National Strategy to Scale Up Access to Coronavirus Disease Testing in Nigeria](#) document.
- The Presidential Task Force has published policies and announcements on COVID-19 [available on the website of the Presidency](#) – including presidential addresses, task force updates and information on livelihood and economic support.
